SUBJECT:—Import of machinery, components thereof, equipment, other commodities and raw materials from the U.S.A. under AID Loan No. 103.

No. 102-ITC(PN)/65.—Attention of Importers is invited to Public Notice No. 52-ITC(PN)/64, dated the 24th June, 1964 as amended from time to time setting out the terms and conditions applicable to Import Licences granted under AID Loan No. 103 till the 31st March, 1965.

2. The following further amendments to the aforesaid Public Notice is hereby notified:—

I. In Annexure I (List of Eligible Items): Against item 1, for "Copper and Aluminium" substitute "Copper and Aluminium. Copper Scrap and Copper Base Alloy Scrap also eligible subject to the special conditions included in Annexure XIV."

II. In Annexure XIV [As inserted by Public Notice No. 75-ITC(PN)/64, dated the 7th September, 1964] notifying the special conditions applicable to certain items of import:

Insert the following as item IX:—

"IX. Copper Scrap and Copper Base Alloy Scrap.—If the import licence authorises import of copper scrap and/or copper base alloy scrap, the

importer should note that before procurement, "Notice to U.S. Business" is necessary and take care that, in the "Notice to U.S. Business" submitted by him, the description of the scrap is stated in terms of Circular NF-58 of the National Association of Secondary Material Industries Inc., (NASMI). (This does not, however, imply that the procurement should be effected from a member of the NASMI only).

The contract concluded by the Importers with the U.S. Supplier must stipulate that the supplier's invoices and certifications as well as all shipping documents should carry the NF-58 classification. The contract should also stipulate, *inter alia*, for the production by the U.S. Supplier of (i) an inspection certificate from a duly recognised inspection firm certifying that the commodity has been inspected *at the pier* and conform to the NF-58 specifications for the respective Code name and (ii) a certificate signed by the U.S. Supplier to the effect that *before* arranging the inspection, he had ascertained from the AID, Washington that the inspection firm referred to above is acceptable to the AID."
